Re: Operations under 3809.1-3 on
the Bell Boy Placer Claim
(declared null & void)
NENE Sec. 34, T6S, R21E

Dear Mr. Rice:

I received your certified letter (P 140 190 884), dated March 21, 1993, on March 29, 1993. Your January 28, 1993, letter was never received by this office.

Since you still have concerns that Orotex is not responsible for all the surface disturbances listed in my decision of March 4, 1993, my staff would like to meet with you or your representative on-site to discuss the surface disturbance in question and determine exactly what actions are required for compliance with the decision.

At this time, I am suspending the Notice of Noncompliance Decision until September 1, 1993, or until appropriate reclamation has been completed, whichever occurs first. If appropriate reclamation is completed before the September 1, 1993, deadline, the Notice of Noncompliance will be canceled. This should allow enough time to resolve the issue and reclaim the appropriate area.

In response to your seed mixture question, we can provide you with the names of some retail outlets which handle seed.

Please contact D. J. Beaupeurt-Schantz or Peter Sokolosky at the address or phone number listed above to arrange the on-site meeting.

Sincerely,

David E. Little
District Manager
